1.- STRUCTURE, FAÇADE AND ENCLOSURES. Foundation footings will be laid in accordance with the recommendations of the corresponding technical projects. The structure will be of one-way reinforced concrete with joists and vaults or reticular. Solarium with ceramic floor tiles or non-trafficable flat roofs (depending on the model) will be of the inverted type with slopes for the correct evacuation of water, thermal insulation and waterproofing, with a gravel surface finish. The external enclosure will be made of autoclaved aerated concrete blocks (Ytong) or thermo-clay block rendered with water-repellent mortar in a chamber. The exterior cladding will be made with single-layer mortar. The interior lining will be of ceramic brick or laminated plasterboard on a structure of...
